What's the secret behind BleachBright PRO?

After years of development, BleachBright has combined specially formulated ingredients to create a new whitening gel that produces extraordinary results without sensitivity. The main ingredients are:

- **Hydrogen Peroxide** - Main ingredient that whitens your teeth.
- **Xylitol** - Reduces the transfer of bacteria, which is responsible for tooth decay.
- **Potassium Nitrate** - Dramatically decreases the chance of sensitivity.
- **Photo Initiator** - Amplifies and intensifies the whitening for double the results.

What is included in BleachBright PRO?

- **Chair Side Bleaching System** - (2) 15 minute sessions.
- **Two sided StarBright Pen** for on-the-go maintenance.
 1. Whitening gel for maintenance on one side.
 2. Enamel strengthening gel on the other.
 - Helps protect and harden enamel.
- **At-Home Kit** - custom impression mouthpiece and case with a syringe for home maintenance (refills available).

BleachBright is a supplier of whitening products worldwide. BleachBright PRO is the most comprehensive whitening system available exclusively to dentists.

Testimonials

BEFORE

AFTER

"I used to hate looking in the mirror when I put makeup on every morning. I knew my teeth were horrible which ruined my look! I had to do something. Then I discovered BleachBright PRO. I can't believe the difference!"

—Gina B.

BEFORE

AFTER

"I've tried so many different products to whiten my teeth and nothing seemed to work. I got frustrated and just tried to accept my yellow teeth. Then, I went to my dentist for a cleaning and they offered me BleachBright PRO. All I can say is WOW!"

—Mike J.

BEFORE

AFTER

"I've considered whitening my teeth at my dentist's office in the past, but could never seem to fit it into my budget. When my dentist offered me BleachBright PRO for under \$150, I couldn't resist. I'm so happy I did it! My teeth whitened 8 shades and I'm ecstatic with the results! I'm 55 and I can't remember my teeth looking better!"
